RHODODENDRON AND KALMIA**PRICES, CAR LOTS****Rhododendron Maximum, Great Laurel**

Many firms are finding it advantageous to buy at least one car load shipped in the fall for the early spring rush. For the past two seasons it has been April fifteenth before we could move a plant from the collection field. This means that orders and landscape jobs are held up waiting for the plants to arrive. If you have never tried the fall shipments give it a trial this year, you will make good money on the early plants for season 1925. Our men have collected Rhododendrons for over twenty years. They know where the good plants are in the Catskill Mountains.

Native, collected, and cut back clumps. These prices apply on solid car lots only. F. O. B. Car, our Rhododendron fields.
